

## INDEX TO VOLUME 81

### A

#### **ABDOMEN**

See also Pelvis; Pneumography; and under names of abdominal organs and structures, as Adrenals; Aorta; Intestines; Kidneys; Liver; Stomach; etc.  
**cancer**  
 —lymphangiography, cavigraphy, and urography: comparative accuracy in the diagnosis of pelvic and abdominal metastases, Stanley Baum, Klaus M. Bron, Lewis Wexler and Herbert L. Abrams, Aug., 207  
**parasites.** See Parasites  
**roentgenography.** See Pelvis, roentgenography; other sub-heads under Abdomen  
**tumors**  
 —gastrointestinal complications associated with radiation therapy—characteristic, confusing, or compounded (ab), Frank A. Brown, Oct., 741  
 —nonvisualization of kidney by excretory urography associated with neoplastic retroperitoneal masses in infants and children (ab), Lester Karafin et al, Aug., 365  
 —whole abdominal irradiation by cobalt-60 moving-strip technic, Luis Delclos, Ernest J. Braun, J. Raul Herrera, Jr., Vincent A. Sampiere and Earl Van Rooseneck, Oct., 632

**ABELANET, R.** See DEPIERRE, R.

**ABER, CLIVE P., CAMPBELL, JOHN A., and MEECHAM, JOHN:** Arterial patterns in mitral stenosis (ab), Nov., 907

#### **ABNORMALITIES and DEFORMITIES**

See also Monsters; and under organs, as Aorta, abnormalities; Heart, abnormalities  
 —impact of ionizing radiations on embryo and fetus (ab), Roberts Rugh, Nov., 923

**ABRAMS, HERBERT L.** See BAUM, STANLEY.

**ABREU, NORTHWAY, WILLIAM H., Jr.**

**D'ABREU, FRANK, and STRICKLAND, BASIL:** Developmental renal-artery stenosis (ab), Oct., 723

#### **ACCIDENTS**

See also Radiations, Injurious Effects, accidental; Trauma; etc.  
 —cervical spine cineradiography after traffic accidents (ab), Malcolm D. Jones, Oct., 728

—liver scanning in diagnosis of hemobilia, Robert Ruskin and Eugene L. Saenger, Dec., 980

**ACCOMAZZI, F.** See GASPARINI, G.

**ACCURACY.** See Lungs, roentgenography

**ACETYLCHOLINE.** See Choline and Choline Derivatives

#### **ACID**

**deoxyribonucleic.** See Nucleins

**ethylenediaminetetraacetic**

—hepatitis and renal studies with iron-59 EDTA in patients with and without liver or kidney disease, John R. McLaren, John T. Galambos, and Wilson D. Drew, Sept., 447

**fatty.** See Glycerides

**oleic.** See Oleic Acid

**ACKERMAN, NORMAN B., McFEE, ARTHUR S., BLUM, JOHN A., MAKOWSKI, EDGAR L., and WANGENSTEEN, OWEN H.:** Multiple-organ cancer screening with diagnostic radioautographic procedures (ab), Nov., 923

#### **ACROMEGALY**

—heavy particle therapy in acromegaly (ab), J. H. Lawrence et al, Aug., 369  
 —radiological skeletal changes in acromegaly (ab), G. Juliani and U. Mauri, July, 171

**ACRO-OSTEOLYSIS.** See Cranium

**ACTINOMYCIN-D**

—early results of combined radiation and chemotherapy in treatment of malignant tumors, Edward A. Langdon, Richard E. Ottoman, Donald B. Rochlin and Charles R. Smart, Dec., 1008

—side-effects of combined radiation and chemotherapy in treatment of malignant tumors, Richard E. Ottoman, Edward A. Langdon, Donald B. Rochlin and Charles R. Smart, Dec., 1014

**ADAIR, HARRY W.** See GOODWIN, PAUL N.

**ADAMS, PAUL, Jr.** See SHONE, JOHN D.

**ADENOCARCINOMA.** See Uterus, cancer

**ADENOMA.** See Lungs, tumors; Parathyroid, tumors; Thyroid, tumors; Vater's Ampulla

**ADHIKARI, PRASANT K., BIANCHI, FERDINAND A., BOUSHY, SAMUEL F., SAKAMOTO, ATSUSHI, and LEWIS, BENJAMIN M.:** Pulmonary function in scleroderma: its relation to changes in the chest roentgenogram and in the skin of the thorax (ab), Oct., 720

#### **ADOLESCENCE**

—painful heel in adolescence (ab), T. E. Jeffreys, Sept., 542

#### **ADRENAL PREPARATIONS**

—angiographic demonstration of portal vasoconstriction in the rat (effects of epinephrine) (ab), P. Virtama and E. Jankala, Aug., 351

#### **ADRENALS**

hemorrhage

—radiologic features of acute massive adrenal hemorrhage of newborn (ab), B. St. J. Brown et al, July, 176

#### **roentgenography**

—angiographic demonstration of adrenals (ab), H. Müller, Oct., 729

#### **ADRENOCORTICAL PREPARATIONS**

—Charcot-like arthropathy following intra-articular hydrocortisone (ab), Charles Le Roy Steinberg et al, July, 172

**AET (S, β-aminooethylisothiuronium)**

—radioprotective effects of β-aminooethylisothiuronium Br.

—HBr in dog (ab), John R. Newsome et al, Oct., 743

**AGARWAL, M. L.:** Osteoclastoma: a radiological study (ab), Sept., 542

#### **AGE and AGING**

—changes in skeletal cell proliferative response to trauma comitant with aging (ab), Edgar A. Tonna and Eugene P. Cronkite, Oct., 726

**AGUSTINSON, M. H., ARCILLA, R. A., GASUL, B. M., BICOFF, J. P., NASSIF, S. I., and LENDRUM, B. L.:** The diagnosis of bilateral stenosis of the primary pulmonary artery branches based on characteristic pulmonary trunk pressure curves: a hemodynamic and angiographic study (ab), Sept., 533

**AHN, C. H.:** Characteristic bronchographic patterns associated with mechanics of breathing (ab), Sept., 527

#### **AIR**

—dosage distribution problems in megavoltage therapy. I. The problem of air spaces (ab), John B. Massey, Sept., 553

**in intestinal tract.** See Intestines, gas in

**use in roentgenography.** See Bladder, tumors; Carbon dioxide; Pneumography; Spinal Canal Roentgenography

**ALBERTI, G. P., GIANNASI, F., and PANZETTI, G.:** De Toni-Caffey-Silverman syndrome in the classification of the periosteopathies of childhood (ab), Oct., 727

**ALBO, ROBERT J., and OBATA, WILLIAM G.:** Radiologic diagnosis of primary sclerosing cholangitis, July, 123

#### **ALBUMIN**

See also Blood, proteins

#### **metabolism**

—determination of plasma albumin turnover in man with a Swiss preparation of human albumin-131 and a study of intestinal participation in total metabolism of albumin (ab), H. Koblet and F. Jeunet, Sept., 555

#### **ALDRICH SYNDROME**

—roentgen manifestation of the Aldrich syndrome (ab), David H. Baker et al, July, 172

**ALEXANDER, G. H.:** See JOHNSTON, JOHN D. H.

**ALEXANDER, LESLIE L., and FRIEDMAN, ASA B.:** Malignant bone pain relief with radioiodine (ab), July, 183

**ALEXANDER, R. W.:** See DAVIS, CARL, Jr.

**ALFORD, T. C.:** See LEVOWITZ, B. S.

**ALKYLATING DRUGS.** See Cancer; under names of drugs, as Nitrogen Mustard; Phosphorus and Phosphorus Compounds

**ALLEN, ARTHUR.** See LEVINE, MILTON

**ALLEN, LUCRETIA B.** See SHAPIRO, JEROME H.

#### **ALLYLAMINE**

—experimental coronary arteriography. I. Distribution and extent of allylamine-induced vascular lesions in dog, Colin M. Bloor and Robert M. Lowman, Nov., 770

—experimental coronary arteriography. II. Arteriography of allylamine-induced vascular lesions, Robert M. Lowman and Colin M. Bloor, Nov., 778

**ALPHA PARTICLES.** See Acromegaly

**AMERICAN ASSOCIATION OF PHYSICISTS IN MEDICINE**

—scientific sessions, Oct., 710

**AMERICAN BOARD OF RADIOLOGY**, Aug., 332

**AMERICAN CANCER SOCIETY**

—Fifth National Cancer Conference, Sept., 520

#### **AMETHOPTERIN**

—chemotherapy by intralympathic infusion (ab), Laird G. Jackson et al, July, 164

**S, β-AMINOETHYLISOTHIURONIUM.** See AET

**AMPEL, LEON L., and KEATS, THEODORE E.:** Aneurysms of the splenic artery (ab), Nov., 909

**AMPLATZ, KURT:** Roentgenographic diagnosis of mitral and aortic valvular disease. Fundamentals of clinical cardiology (ab), Aug., 348

Symposium on coronary arteriography: techniques of coronary arteriography (ab), Nov., 906

Translumbar catheterization of the abdominal aorta, Dec., 921

—See ELLIOTT, LARRY P.

**RESCH, JOSEPH, and HILAL, SADEK:** A catheter approach for cerebral angiography, Oct., 576

—See SHONE, JOHN D.

**AMROMIN, GEORGE D.** See GILDEHN, HYMAN L.

**ANASTOMOSIS.** See Arteries, choroidal

**ANDERSON, MARGARET, GREEN, WILLIAM T., and MESSNER, MARIE BLAIS:** Growth and predictions of growth in the lower extremities (ab), Nov., 914

**ANDERSON, RAY C.** See ELLIOTT, LARRY P.

—See SHONE, JOHN D.

**ANDRÉN, L., DYMLING, J.-F., HOEGEMAN, K.-E., and WENDEBERG, B.:** Osteopetrosis, acro-osteolysis: syndrome of osteopetrosis, acro-osteolysis and open sutures of skull (ab), Oct., 725

**ANDREWS, GILES J., and REYNOLDS, JACK:** Pelvic pneumography in diagnosis of gynecologic disorders (ab), Oct., 729

**ANDREWS, HOWARD L., and PETERSON, DOROTHY C.:** Variations in radiation recognition by the mouse (ab), Aug., 376

**ANEMIA**  
Cooley's. See Anemia, erythroblastic erythroblastic  
—constitutional and nonhematologic changes in thalassemia (ab), B. Truniger and M. Schmid, Sept., 541

sickle-cell. See also Sickle-Cell Disease  
—avascular necrosis of the femoral head associated with sickle cell trait. (AS hemoglobin) (ab), Ralph G. Ratcliff and Melvyn D. Wolf, July, 172

—evaluation of some roentgenographic signs in sickle-cell anemia and its variants (ab), Jack Reynolds, Sept., 544

**ANESTHESIA**  
—anesthesia for barotherapy (ab), N. M. Cass, Oct., 732

—bronchography in children under topical anesthesia (ab), F. J. Hillman and Marc D. Rosenberg, Aug., 343

**ANEURYSM**  
—cerebral hemangioblastoma simulating a berry aneurysm, Robert Chernoff and Marvin Haskin, Aug., 248

aortic  
—aneurysm of arch of thoracic aorta with compressions of left pulmonary artery (ab), M. G. Varadarajan, July, 162

cardiac  
—resection of myocardial aneurysms after infarction during temporary cardiopulmonary bypass (ab), C. Walton Lillehei et al., Sept., 531

cerebral  
—contribution of radiology to study of intracranial aneurysms (ab), J. W. D. Bull, Oct., 716

hepatic  
—hepatic artery aneurysm, John L. Howieson, Oct., 598

intracranial. See Aneurysm, cerebral

myocardial. See Aneurysm, cardiac

splenic  
—aneurysms of splenic artery (ab), Leon L. Ampel and Theodore E. Keats, Nov., 909

**ANGINA PECTORIS**  
—arteriographic demonstration of coronary artery spasm and its release after use of vasodilator in case of angina pectoris and in the experimental animal (ab), Goffredo G. Gensini et al., Oct., 723

**ANGIOCARDIOGRAPHY**  
See also Angiography; Cardiovascular System, roentgenography; Heart  
—demonstration of collateral circulation to lungs with angiographic studies in congenital heart disease (ab), Warren G. Guntheroth et al., July, 161

—diagnosis of bilateral stenosis of primary pulmonary artery branches based on characteristic pulmonary trunk pressure curves: hemodynamic and angiographic study (ab), M. H. Agustsson et al., Sept., 533

—left ventricular angiography in study of ventricular septal defects, Murray G. Baron, Bernard S. Wolf, Leonard Steinfield and Alvin J. Gordon, Aug., 223

apparatus and equipment  
—image distortion in cineradiographic equipment, William F. Barry, Jr., Henry D. McIntosh and Robert E. Whalen, Sept., 508

complications and sequelae  
—intramural deposition of contrast agent during selective angiography, Joseph J. Bookstein and Joan M. Sigmann, Dec., 932

technic  
—methods of altering circulatory dynamics to improve roentgen examination of cardiovascular system, Chamberlain Lecture, 1961 (ab), Björn Nordenström, Dec., 1049

—percutaneous catheterization of the four heart chamber (ab), W. Porstmann et al., Aug., 348

—selective left heart angiography by transseptal route (ab), Eugene Braunwald et al., July, 161

**ANGIENDOTHELIOMA.** See Tumors, angiendothelioma

**ANGIOGRAPHY**  
See also Angiocardiography; Radiobiology; Tumors, experimental; and under organs and blood vessels, as Arteries; Coronary Vessels; Kidneys, blood supply; etc.  
—angiography in the general practice of radiology, Thomas E. Johnson, July, 38

—angiography: state of the art (ed), William R. Eyler, Oct., 686

—case of cystadenoma of pancreas studied by selective angiography, Gary E. Swanson, Oct., 592

—effect of high-dosage ultrasonic energy of femora of dog: roentgenographic, histological, and microangiographic study (ab), Joseph M. Janes et al., Aug., 363

—microangiography in bone healing. I. Undisplaced closed fractures (ab), Frederic W. Rhinelander and Richard A. Barargy, Aug., 363

apparatus and equipment. See also Angiography, technic  
—new Teflon catheter for percutaneous catheterization and contrast material injection, Goffredo G. Gensini, Dec., 939

complications  
—complications of cerebral angiography in 2,000 consecutive cases (ab), J. Rodney Field et al., July, 156

—survey of complications of percutaneous retrograde arteriography: Seldinger technic, Erich K. Lang, Aug., 257

technic  
—additional experiences with direct percutaneous non-catheter brachial angiography—left panarteriography—right cerebral angiography, Thomas R. Marshall, J. T. Ling and Raul Gonzalez, Oct., 568

—alternate exposures in two-plane angiography (ab), Lars Björk and Herman Lodin, Aug., 349

—angiographic demonstration (by microangiography) of portal vasoconstriction in rat (ab), P. Virtama and E. Jänkälä, Aug., 351

—angiographic demonstration of adrenals (ab), H. Müller, Oct., 729

—axillary artery approach to carotid, vertebral, abdominal aorta, and coronary angiography, William Hanafee, Oct., 559

—balloon catheters for percutaneous insertion into vascular system (ab), Björn Nordenström, Sept., 530

—catheter approach for cerebral angiography, Kurt Amplatz, Joseph Resch and Sadek Hilal, Oct., 576

—evaluation of angiographic techniques of extracranial circulation. Report of a case of carotidynia (ab), John A. Evans and Israel Steinberg, July, 161

—experimental evaluation of operative technic for renal angiography (ab), William Glantz and John J. Murphy, Oct., 730

—inquiry into physical factors governing flow of contrast substances through catheters (ab), R. N. Cooley and L. B. Beentjes, Dec., 1054

—methods of altering circulatory dynamics to improve roentgen examination of cardiovascular system, Chamberlain lecture, 1961 (ab), Björn Nordenström, Dec., 1049

—retrograde brachial angiography in cerebrovascular disease (ab), L. M. Thomas et al., Aug., 341

—selective carotid angiography: preliminary report, William Hanafee and William Weidner, Oct., 589

—technic of postmortem angiography for evaluating arteriosclerosis of aortic arch and carotid and vertebral arteries, Bennett M. Stein and Gerhart T. Svare, Aug., 252

**ANGIOMA.** See Tumors, angioma

**ANKLE**  
abnormalities  
—some uncommon deformities of ankle and foot (ab), Philip Jacobs, Sept., 542

—talonavicular synostosis (ab), Richard R. Schreiber, Nov., 914

**ANKYLOSIS.** See Spine, ankylosis; arthritis

**ANSFIELD, F. J.** See GOLLIN, F. F.

**ANSON, S. G.** See ASSCHER, A. W.

**ANTERIOR TIBIAL SYNDROME.** See Legs

**ANTICOAGULANTS**  
—intramural jejunal hematomas secondary to anticoagulant therapy (ab), Burton Silbert et al., Aug., 355

**ANTON, HENRY C., and PALMER, J. H.:** Corrugation of the colon: its significance in ulcerative colitis (ab), Sept., 538

—and SUTHERLAND, DONALD H.: Unusual presentation of segmental colitis (ab), Nov., 911

**AORTA**  
See also Aneurysm  
abnormalities  
—inverted pattern of development of thoracic vertebral osteophytosis in situ inversus and in other instances of right descending aorta (ab), H. Nathan and A. Schwartz, July, 162

—origin of both great arteries from the right ventricle and pulmonary stenosis: case successfully corrected (ab), Morris J. Levy et al., Aug., 349

—two types of right aortic arch, Benjamin Felson and Max J. Palayew, Nov., 745

roentgenography. See Aortography  
rupture  
—irradiation injury to elastic arteries in course of treatment for neoplastic disease (ab), Raul A. Marcial-Rojas and Jose R. Castro, Oct., 740

sclerosis. See Arteriosclerosis

stenosis. See Aorta, stenosis  
—idiopathic ventricular septal hypertrophy causing muscular subaortic stenosis (ab), E. Douglas Wigle et al., Sept., 532

**AORTIC ARCH.** See Aorta; Arteriosclerosis

**AORTIC VALVE**  
calcification  
—value of simultaneous tomography in demonstrating calcifications of cardiac valves (ab), Lars Björk and Herman Lodin, Nov., 907

insufficiency  
—aortic insufficiency—cineradiologic assessment (ab), Ronald F. Colapinto et al., Oct., 722

—roentgenographic diagnosis of mitral and aortic valvular disease: fundamentals of clinical cardiology (ab), Kurt Amplatz, Aug., 348

—ventricular septal defect with aortic insufficiency: clinical and hemodynamic study of 18 proved cases (ab), Ernst W. O. Keck et al., Dec., 1050

stenosis  
—acquired aortic valvular stenosis; its diagnosis by conventional radiological study, J. Stauffer Lehman et al., July, 24

**AORTIC VALVE, stricture—cont.**

—low subvalvular aortic and pulmonic stenosis with hypertrophy and abnormal arrangement of muscle bundles of myocardium (ab), B. Nordenström and C. O. Övenfors, July, 162

—roentgenographic diagnosis of mitral and aortic valvular disease: fundamentals of clinical cardiology (ab), Kurt Amplatz, Aug., 348

**AORTOGRAPHY**

See also Aneurysm; Aorta; Extremities, blood supply; Kidneys, blood supply; etc.

**complications**

—anterior tibial syndrome following aortography and associated with septicemia (ab), D. B. Leaming and J. H. Casey, Dec., 1052

—intrathecal injection, an unusual complication of translumbar aortography: case report (ab), Louis W. Doroshow et al., July, 163

—survey of complications of percutaneous retrograde arteriography: Seldinger technic, Erich K. Lang, Aug., 257

**technic**

—abdominal aortography: new catheter tip closing obturator for percutaneous technic, Kurt R. Straube and Charles T. Dotter, Aug., 264

—axillary artery approach to arteriography of aorta and its branches (ab), Thomas H. Newton, Dec., 1051

—axillary artery approach to carotid, vertebral, abdominal aorta, and coronary angiography, William Hanafee, Oct., 559

—direct retrograde femoral aortography (ab), John A. Waldhausen and Eugene C. Klatte, July, 163

—intravenous abdominal aortotomography (ab), Israel Steinberg and John A. Evans, Dec., 1052

—percutaneous femoral right atrial aortography, Marvin J. Friedenberg and Alan H. Edelman, Oct., 584

—single arm, percutaneous intravenous aortography (ab), Joseph Gusmano and Joseph Gallagher, Dec., 1052

—technic of intravenous abdominal aortography (ab), Samuel D. Henley and Nathaniel Finby, Aug., 356

—translumbar catheterization of the abdominal aorta, Kurt Amplatz, Dec., 927

**APPARATUS.** See Cineroentgenography; Roentgen Rays, apparatus; Radiocobalt, apparatus and equipment; etc.

**APPENDIX**

—filling of the healthy appendix (ab), K. Pressler, July, 170

**APPLICATORS.** See Uterus, cancer

**AQUEDUCT OF SYLVUS**

—occipital emissary vein enlargement: sign of increased intracranial pressure, Kuo York Chynn, Aug., 242

—simplified method for pneumoencephalographic demonstration of fourth ventricle and aqueduct of Sylvius (ab), John D. H. Johnston et al., Nov., 902

**ARACHNOID**

tuberculosis. See Meninges

**ARCASOY, MUFIT M.** See GUNTHEROTH, WARREN G.

**ARCILLA, R. A.** See AGUSTSSON, M. H.

**ARDAN, GORDON M.** See RITCHIE, JAMES A.

**ARMILLIFER** armillatus. See Parasites

**ARMS.** See Extremities

**ARTERIES**

absence. See Arteries, carotid

**axillary**

—axillary artery approach to arteriography of aorta and its branches (ab), Thomas H. Newton, Dec., 1051

—axillary artery approach to carotid, vertebral, abdominal aorta, and coronary angiography, William Hanafee, Oct., 559

**basilar**

—brachial-basilar insufficiency syndrome (ab), Richard R. North et al., Sept., 525

—“subclavian steal” syndrome: further documentation (ab), John A. Mannick et al., Aug., 350

**brachial**

—additional experiences with direct percutaneous noncatheter brachial angiography—left panarteriography—right cerebral angiography, Thomas R. Marshall, J. T. Ling and Raul Gonzalez, Oct., 568

—brachial arteriography: its value in cerebrovascular insufficiency (ab), Charles M. Poser and R. Glenn Snodgrass, Sept., 525

—brachial-basilar insufficiency syndrome (ab), Richard R. North et al., Sept., 525

—percutaneous left brachial renal angiography (ab), Bill G. Karras et al., Nov., 908

—retrograde brachial angiography in cerebrovascular disease (ab), L. M. Thomas et al., Aug., 341

**bronchial**

—scimitar syndrome: report of 2 cases of anomalous venous return from hypoplastic right lung to the inferior vena cava (ab), Martial G. Bourassa, Nov., 909

**carotid**

—agensis of internal carotid artery (ab), Ian Turnbull, Aug., 340

—axillary artery approach to carotid, vertebral, abdominal aorta, and coronary angiography, William Hanafee, Oct., 559

—carotid compression device for prevention of radiation hazard, Herbert Schunk, Aug., 324

—comparison of Renografin and Hypaque for carotid arteriography (ab), C. Norman Shealy, Dec., 1052

—evaluation of angiographic technic of extracranial circulation. Report of a case of carotidynia (ab), John A. Evans and Israel Steinberg, July, 161

—radiologic visualization of neck vessels in cerebrovascular insufficiency (ab), Charles M. Poser et al., Aug., 339

—selective carotid angiography: preliminary report, William Hanafee and William Weidner, Oct., 589

—significance of displacement of cavernous portion of internal carotid artery (ab), J. W. D. Bull and H. Schunk, Oct., 716

—subdural empyema and abscesses in carotid angiogram (ab), G. Weber, Oct., 717

—technic of postmortem angiography for evaluating arteriosclerosis of aortic arch and carotid and vertebral arteries, Bennett M. Stein and Gerhart T. Svare, Aug., 252

**celiac**

—case of cystadenoma of pancreas studied by selective angiography, Gary E. Swanson, Oct., 592

**cerebral.** See also Aneurysm

—additional experiences with direct percutaneous noncatheter brachial angiography—left panarteriography—right cerebral angiography, Thomas R. Marshall, J. T. Ling and Raul Gonzalez, Oct., 568

—anastomosis between the anterior choroidal artery and posterior cerebral artery demonstrated by arteriography, F. Galatius-Jensen and V. Ringberg, Dec., 942

—catheter approach for cerebral angiography, Kurt Amplatz, Joseph Resch and Sadek Hilal, Oct., 576

—“subclavian steal” syndrome: further documentation (ab), John A. Mannick et al., Aug., 350

**choroidal**

—anastomosis between the anterior choroidal artery and posterior cerebral artery demonstrated by arteriography, F. Galatius-Jensen and V. Ringberg, Dec., 942

**coronary.** See Coronary Vessels
**femoral**

—direct retrograde femoral aortography (ab), John A. Waldhausen and Eugene C. Klatte, July, 163

**fistula.** See Fistula
**hepatic.** See Aneurysm, hepatic
**innominate**

—collateral pathway through vertebral arteries associated with obstruction of innominate and proximal subclavian arteries, Morton A. Bosniak, July, 89

**mesenteric**

—case of cystadenoma of pancreas studied by selective angiography, Gary E. Swanson, Oct., 592

—percutaneous selective angiography of inferior mesenteric artery (ab), Bertil G. Ström and Thor Winberg, Sept., 534

**occlusion.** See other subheads under Arteries
**ophthalmic**

—selective ocular arteriography in living experimental animals (ab), Peter H. Bulette et al., Oct., 722

**pulmonary**

—aneurysm of arch of thoracic aorta with compressions of left pulmonary artery (ab), M. G. Varadarajan, July, 162

—arterial patterns in mitral stenosis (ab), Clive P. Aber et al., Nov., 907

—combination of arterial vascular hypoplasia and cystic lung changes (ab), E. Bücheler and P. Thurn, July, 158

—congenital absence of pulmonary valve: clinical syndrome of tetralogy of Fallot with pulmonary regurgitation (ab), Robert A. Miller et al., Sept., 533

—diagnosis of bilateral stenosis of the primary pulmonary artery branches based on characteristic pulmonary trunk pressure curves: hemodynamic and angiographic study (ab), M. H. Agustsson et al., Sept., 533

—origin of both great arteries from the right ventricle and pulmonary stenosis: case successfully corrected (ab), Morris J. Levy et al., Aug., 349

—resection of myocardial aneurysms after infarction during temporary cardiopulmonary bypass (ab), C. Walton Lillehei et al., Sept., 531

—scimitar syndrome: report of 2 cases of anomalous venous return from a hypoplastic right lung to the inferior vena cava (ab), Martial G. Bourassa, Nov., 909

—syndrome of severe mitral regurgitation with normal left atrial pressure (ab), Eugene Braunwald and William C. Awe, Nov., 907

**renal.** See also Fistula, arteriovenous

—angiography in detection of renal arterial obstruction (ab), R. N. Cooley and J. R. Derrick, Oct., 723

—angiography in renal trauma (ab), Olle Olsson and Anders Lunderquist, Nov., 916

—developmental renal-artery stenosis (ab), Frank d'Aubre and Basil Strickland, Oct., 723

—experimental evaluation of operative technic for renal angiography (ab), William Glantz and John J. Murphy, Oct., 730

—function of contralateral kidney in renal hypertension due to renal artery stenosis (ab), Alan P. Thal et al., Nov., 908

—incidence of multiple renal arteries on angiography: report of a series of 400 patients, 381 of whom had arterial hypertension (ab), James R. Geyer and E. F. Poutasse, Aug., 350

—percutaneous left brachial renal angiography (ab), Bill G. Karras et al., Nov., 908

—selective renal biopsy using roentgen television control (ab), I. Fernström and K. Lindblom, Oct., 730

**ARTERIES, renal—cont.**

- simplified method of subtraction and its application to renal arteriography (ab), R. K. Levick and J. Mitchell, Oct., 723
- subtraction technic: experiences with application to trans-tibial renal arteriography (ab), S. David Rockoff and Walter A. Camp, Nov., 908
- technic of renal angiography (ab), W. A. Fuchs, Dec., 1053
- transfemoral percutaneous renal arteriography (ab), Harry C. Miller et al., July, 163
- roentgenography.** See Angiocardiography; Angiography; other subheads under Arteries; under organs and regions
- rupture**
- irradiation injury to elastic arteries in course of treatment for neoplastic disease (ab), Raul A. Marcial-Rojas and José R. Castro, Oct., 740
- splenic.** See also Aneurysm
- splenic arteriography in diagnosis of diseases of spleen (ab), J. Rösch and J. Bret, Aug., 367
- subclavian**
- brachial-basilar insufficiency syndrome ("subclavian steal") (ab), Richard R. North et al., Sept., 525
- collateral pathway through vertebral arteries associated with obstruction of innominate and proximal subclavian arteries, Morton A. Bosniak, July, 89
- "subclavian steal" syndrome: further documentation (ab), John A. Mannick et al., Aug., 350
- vertebral**
- axillary artery approach to carotid, vertebral, abdominal aorta, and coronary angiography, William Hanafee, Oct., 559
- collateral pathway through vertebral arteries associated with obstruction of innominate and proximal subclavian arteries, Morton A. Bosniak, July, 89
- radiographic studies of vertebral arteries in cadavers; effects of position and traction on head, B. St. J. Brown and W. F. Tissington Tatlow, July, 80
- radiologic visualization of neck vessels in cerebrovascular insufficiency (ab), Charles M. Poser et al., Aug., 339
- "subclavian steal" syndrome: further documentation (ab), John A. Mannick et al., Aug., 350
- technic of postmortem angiography for evaluating arteriosclerosis of aortic arch and carotid and vertebral arteries, Bennett M. Stein and Gerhart T. Svare, Aug., 252

**ARTERIOGRAPHY.** See Angiocardiography; Angiography; Arteries; under organs and regions**ARTERIOSCLEROSIS**

- arteriographic study of sites, incidence, and treatment of arteriosclerotic cerebrovascular lesions (ab), Raymond B. Bauer et al., Aug., 341
- technic of postmortem angiography for evaluating arteriosclerosis of aortic arch and carotid and vertebral arteries, Bennett M. Stein and Gerhart T. Svare, Aug., 252
- ARTHRITIS. RHEUMATOID.**
- lung changes in primary chronic polyarthritides; contribution to so-called "rheumatoid lung disease" (ab), W. Hartl, Aug., 344
- rheumatoid lung (ab), G. Brian Locke, Nov., 904
- rheumatoid nodules in the lung (ab), D. James Sieniewicz et al., July, 159
- roentgenologic manifestations of juvenile rheumatoid arthritis (ab), William Martel et al., Sept., 543

**ARTHROGRAPHY.** See Shoulder**ASCITES**

## TUMORS—cont.

**Ewing's**  
—study of postirradiation chondrosarcoma of bone (after roentgen therapy for Ewing's tumor of femur) (ab), Vatsala V. Vakil and M. V. Sirsat, Sept., 557

**experimental**  
—angiography of malignant tumors in mice following irradiation, William H. McAlister and Alexander R. Margulis, Oct., 664

—changes of oxygen tension in tumors induced by vasoconstrictor and vasodilator drugs (ab), D. B. Cater et al., Oct., 742

—effect of total-body irradiation on response of transplanted mouse tumors to fractionated local radiotherapy. I. Tumor response, longevity, and late changes, Melvin R. Sikov, Bettina B. Cook and James E. Lofstrom, Oct., 642

—lower body x-irradiation and 3-methylcholanthrene administration in breast-tumor induction in Wistar rat (ab), Harry Shay et al., Oct., 744

—lymphography: animal study on diagnosis of Vx2 carcinoma and inflammation (ab), Bengt Tjernberg, Aug., 352

—quantitative studies of relationships between tumor cell ploidy and dose response to ionizing (x-) radiation *in vivo*. Modification of radiation response in previously irradiated tumor (ab), Roger J. Berry, Dec., 1063

**fibroma**  
—nasopharyngeal fibroma presenting with pituitary and optic nerve symptomatology (ab), Irwin M. Freundlich and Philip J. Hodes, Nov., 921

**glioma**  
—calcification in intracranial glioma (ab), C. Kalan and Edmund H. Burrows, July, 156

**gliomas**  
—changes in phalanges in Barré-Masson disease (ab), O. S. Aznavurian, Sept., 541

**hemangiopericytoma.** See Tumors, angiopericytoma

**hemangioma.** See Tumors, angioma

**in children and young adults**  
—neuroblastoma: medical progress (ab), Harold W. Dargeon, Sept., 548

—nonvisualization of kidney by excretory urography associated with neoplastic retroperitoneal masses in infants and children (ab), Lester Karafin et al., Aug., 365

—radiographic appearance of soft tissues in diencephalic syndrome of infancy, Andrew K. Poznanski and Gordon Manson, July, 101

**lipoma**  
—intraperitoneal lipoma simulating pericardial effusion: report of 2 cases, Israel Steinberg, Robert S. Sherman and Irving Waldman, Dec., 949

—lipoma of lung: review of literature and report of case (ab), Aaron Plachta and Herbert Hershey, Oct., 721

**lymphoma**  
—necrotizing enteropathy: roentgenographic features (ab), Hyman L. Gildenhor et al., Sept., 538

—radiotherapeutic management of lymphomatous diseases (ab), Lillian M. Fuller and Gilbert H. Fletcher, Sept., 549

—renal involvement of lymphomas and leukemias in adults (ab), Jerome H. Shapiro et al., Sept., 546

—whole abdominal irradiation by cobalt-60 moving-strip technic, Luis Delclos, Ernest J. Braun, J. Raul Herrera, Jr., Vincent A. Sampiere and Earl Van Rooseneek, Oct., 632

**medulloblastoma.** See Cerebellum, tumors

**melanoma**  
—multiple-organ cancer screening with diagnostic radioautographic procedures (ab), Norman B. Ackerman et al., Nov., 923

**meningioma.** See Meninges

**metastases.** See Cancer, metastases; Lymph Nodes; etc.

**neuroblastoma**  
—neuroblastoma: medical progress (ab), Harold W. Dargeon, Sept., 548

**neurofibroma**  
—bilateral cervical neurofibromata presenting as cervical spondylosis: two unusual cases (ab), Richard B. Raynor and Lester A. Mount, Oct., 715

**neurogenic**  
—differential diagnostic peculiarities of neurogenic mediastinal tumors (ab), H. Gremmel et al., Dec., 1048

**osteoclastoma**  
—osteoclastoma: radiological study (ab), M. L. Agarwal, Sept., 542

**polyp.** See Rectum, tumors; Stomach, tumors

**seminoma**  
—radiotherapy in treatment of patients with seminomas and teratomas of testicle (ab), D. W. Smithers and E. N. K. Wallace, Oct., 737

**sympathicoblastoma**  
—sympathicoblastoma: radiological findings in 43 cases (ab), A. F. Barrett and D. K. M. Toye, Nov., 916

**teratoma**  
—cystic teratoma (dermoid) of ovary, Robert D. Sloan, Nov., 847

—radiotherapy in treatment of patients with seminomas and teratomas of testicle (ab), D. W. Smithers and E. N. K. Wallace, Oct., 737

**therapy**  
—clinical appraisal of cyclophosphamide in malignant neoplasms (ab), Harold L. Atkins et al., July, 178

—early results of combined radiation and chemotherapy in treatment of malignant tumors, Edward A. Langdon, Richard E. Ottoman, Donald B. Rochlin, and Charles R. Smart, Dec., 1008

—radiation and 5-fluorouracil: a controlled clinical study, Carl F. von Essen, Morton M. Kligerman, and Paul Calabresi, Dec., 1018

—side-effects of combined radiation and chemotherapy in treatment of malignant tumors, Richard E. Ottoman, Edward A. Langdon, Donald B. Rochlin, and Charles R. Smart, Dec., 1014

**transplantation.** See Radiobiology, dosage studies; Tumors, tuberculoma
